DETAILED ACTION

Double Patenting

Claim 1 of this application conflict with claim 1 of Application No. 10/729,211. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: BLACKBURN 5,890,779 discloses an apparatus that provides power to the vehicle seat without using an electrical plug-in connection by transmitting electrical energy from the power transmitting coil on the vehicle body to the power receiving coil on the vehicle seat, however BLACKBURN does not disclose the transformer including the iron core configuration as claimed in claim 1.
